

## AIRSHOWS AND EVENTS

Airborne attend several air shows and fly-ins through out the year. It is a good opportunity to catch up with an Airborne representative and check out the latest the company has to offer. Often there are air show specials on the factory demo aircraft. This year we are looking forward to attending the Nat Fly at Temora NSW. This promises to be a big event due to the excellent venue. We expect a lot of Airborne owners to fly-in and will award: an Airborne jacket, and a light weight trike hanger cover to whoever fly's an Airborne microlight the furthest to get to the event.

- **AGQUIP – GUNNEDAH NSW Australia – 17 – 19 August 2010**  
See us at Agquip this year. We will have several models of our range on display. CFI Chris Perdulovski will be available to talk about flight training. Chris can offer training in your area or at his facility. Russell Duncan will be on the stand representing Airborne. Many farmers use microlights as they allow excellent vision for surveying property and stock. The Tundra wheels allow for rough terrain landing.
