

# the fun your first, second and third step. the ultimate in free flight.

The Fun is by far the biggest selling glider of it's kind in Australia and many other countries around the world. The name says it all, fun to fly, light weight, quick and easy to set-up. Fly the dunes, coastal cliff or inland thermals the Fun will not disappoint. The Fun is light and well balanced, which makes this glider easy to launch and easy to land. A perfect glider for the novice, a must have for experienced pilot's who want to put the fun back into their sport.

**FUN**

**AirBorne**  
AUSTRALIA

from dune to thermal  
its all easy on the fun

**Fun 160, 190, 220** - Floater. As its name implies the glider will give you hours of fun whether you fly the dunes, coastal cliffs or thermals. The Fun is one of the easiest hang gliders to launch and land. The Fun will help pilots to build their confidence and hone their skill in all aspects of the sport. The Fun is a good first step glider for new students and many veteran pilots are also flying Funs. Searching for the perfect sand dune or competing in the floater class shows the versatility of the Fun. The 220 is a certified tandem hang glider.
